While seated in the house they all came in and Lucy (he dead woman) pinned a flower on the lappel of his coat. He sent out and got some clams. "Hilly, Billy, Come up Here."

"Billy, Billy, Come up Here."
Winess rushed upstairs and found her lying on the edge of the bed. Witness said: "Lucy, for the Lord's sake, what have you done?" Lucy replied: "Take my clothes off." Witness commenced to take her clothes off, when she told him to get out of the way, that she could take thom off quicker than he could. Witness examined her and found she had

Mrs. Hunt and two ladies came to the house and witness went after Dr. Bearman, When the doctor came he told witness there were very little hopes of her recovery, and suggested that she be removed to Providence Hospital.

Coroner.
"Yee," answered the witness.
"Was she a left-handed person?"
"No, sir."
"Was there any scorebing about the clothes?" "Yes; in the vicinity of the wound the clothes were corrched." The witness was here excused. Previous Threats of Suicide.

Mr. Wells no Longer Special Coun-sel—A Number of Cases Nolle Prossed.

By provious understanding to-day was set for hearing in the Criminal Court before Judge Wylle the demurrers to certain of the indictments in the cases against the ex-de

matter to the attention of the Court. He said he had expected to be assisted in the argument by Mr. H. H. Wells, but this morning he had been informed by Mr. Wells that yesterday he received notice from the attorney-General that his services would no longer be required. For this and other reasons, and by an understanding with Mr. Williams, counsel on the other side, it was agreed that the argument on the demurrers should go over for two weeks. He had examined into some of the cases. There were five for hearing on demurrer, six set for trial, and in seven cases he would enter a nolle proce, as there were subsequent indictments in these cases setting forth the same oftense. he had expected to be assisted in the argu-

offense.

The Indictments Dismissed are as follows:

No. 14,680, Charles E. Flinder and George W. McEifreell, charged with receiving stolen property belonging to Joseph Baumer.

No. 14,696, George C. Miller, misconduct in office, in receiving \$70 from Mr. Reginald Fendall for recovering stolen silverplate.

No. 14,697, George C. Miller, extortion under color of file office as a detective, in exacting \$70 from Reginald Fendall to pay for the recovery of stolen silver-plate.

No. 14,698, George W. McEifresh, extortion under color of office as a detective, in exacting from Wm. White \$50 for recovery of a sealskin sacque valued at \$300.

No. 14,775, George W. McEifresh, misconduct in office in receiving from Wm. White \$50 for recovering the sealskin sacque.

No. 14,776, George W. McEifresh, violating section 357, Revised Statutes of the District of Columbia, in appropriating to his own use \$50 received from Wm. White, instead of turning the same over to the property clerk.

No. 14,772, George W. McEifresh, George C. Miller, James A. McDevitt, John W. Coomes, Joseph Acton and A. H. Voss, for compounding a felony with John Henry Murphy and others in connection with a three-card monte case.

The Charge Against Acton. se. The Indictments Dismissed

The Charge Against Acton.

The Charge Against Acton.

Mr. Daniel E. Cabill, counsel for Joseph Acton, called the attention of the Court to the cases sgainst his client. He said that a demurrer had been filed in the case over a year since and no action taken upon it. The indistment, he thought, was frivolous on its face and worthless. Mr. Acton was indicated for violating one of the rules of the Department, and there was no statute he could find that imposed punishment in such cases outside of what the police regulations indicted.

Mr. Worthington said that he did not recollect the case, but that he would look into it as soon as he was able.

Mr. Cahili stated that Mr. Acton was out of employment with a large family about him to be supported. He had an opportunity to get work out of the city but was detained here by these indictments.

"Let him go and get the work," said the Judge, "and we will take the chances of getting him back sgain. I don't think he will run away."

Mr. Cabili said there was no danger of that.

ting him back again. I don't think he will run away."
Mr. Cabill said there was no dauger of that, but they would like some disposition made of the indictments.
Judge Wylle informed him that nothing more could be done at present, and the matter rested with the District Attorney, who seemed to be making what progress he could.
Mr. Worthington said as he examined into the cases he would take such action as he deemed proper.

FRANK WARD WON'T GET LEFT. What he Proposes to do With His

Third Street Property if the Peo-ple there Won't Buy It. A CRITIC reporter asked Frank Ward this morning if it was true that he was negotiating with Mr. Calderon Carlisle for the sale of his dairy property on Third street. "Yes, it's true," replied the dispensor of the

lacteal fluid. "The Court has decreed that I've got to go. I have been offered \$1.25 per foot for the ground by Mr. Caritale, who proposes to improve the neighborhood with a row of bandsome residences. He only wants the ground, and the afflicted residents are thinking of raising \$7,000 to help pay me for the buildings. If the latter is not effected there will be no sale."
"In that event what use can you make of your dairy buildings?" Inquired the scribe. "That's where the fun comes it," was the reply, "and he held on to a lamp-post and laughed until the reporter was more than half inclined to believe that his old friend's, the milkings, brain, was turned by his troubles." acteal fluid. There was talk at the Capitol to-day about recommitting the Tariff bill, with the un-derstanding that it would not be reported again at this session of Congress. THE EMPEROR OF GERMANY.

The Mystery Attaching to His Physical Condition Causes Much

Anxiety. Bentin, May 3.—There seems to be a great deal of mystery straching to the condition of the Emperor of Germany. First it was an nounced that he was il', then again he had completely recovered, but that the liness of the Empress Augusta prevents i him from pay ing his usual spring visit to Wicsbaden. Yes-terday it was expected that the Emperor-would inspect the foot guards on their annual review at Potedam, but he failed to attend, notwithstanding that the latest announcement was to the effect that his and the Empress' health was excellent.

health was excellent.

The Fact that He Did Not Inspect the Guards
causes much comment, as it is the general belief that had his health been such as was claimed in the recent announcement in the Gazelis he would have been present. It is the first time in years that he has failed to conduct the review. It is vaguely hinted to-day by members of his household that the reason of his not conducting the review was that his sleep on Thursday night was somewhat troubled by abdominal pains, and that he refrained from being present at Fotsdam at he request of his physician.

In conversation with a well-informed gentlemen he stated that the Emperor was far from being convalences and that his condition is even such as to

LONDON, May B.—The hopes of the relatives and friends of the passengers on board the overdue steamer State of Florida were somewhat revived this morating by the receipt of a dispatch from Bristol announcing that the steamer Devon, from New York, Ap 11 18, had arrived there with the crew and passengers of the State of Florida, and that they had been picked up in two boats in midcesan.

A later dispatch, however, caused considerable gloom by announcing that the two boats belonging to the State of Florida, which had been picked up by the Devon, were empty. Still the agents here have not given up hope, and state that the boats may have been washed away during a severe storm, and that it only tends to confirm their theory that the State of Florida had lest her projecter and was proceeding under sail.
